LEADSTREET LEAD ROUTING RULES & ELIGIBILITY

Lead Assignment

Each time a lead is generated, the RE/MAX algorithm assigns it to an agent in the following priority:

Lead Distribution

Once a lead is generated and offered to an agent, the recipient has one hour to accept it. If the lead is not accepted within an hour, the system re-offers the same lead to another agent. Of the two agents who now have the lead, the first to accept will receive it. After the first re-offer, the process repeats itself every 15 minutes (sending the lead to more and more agents) until the lead is accepted. The lead distribution time frames apply from 8 a.m. - 5 p.m. in your local time zone, seven days a week.

Lead Eligibility

Agents must meet certain requirements in order to receive leads. To qualify, an agent must have a LeadStreet Profile that is at least 75% complete and must not have missed responding (either accepting or declining) to three consecutive initial-offer leads.

1
YOUR LEADSTREET PROFILE IS AT LEAST 75% COMPLETE

2
YOU HAVEN'T MISSED ACCEPTING OR DECLINING 3 CONSECUTIVE INITIAL OFFER LEADS

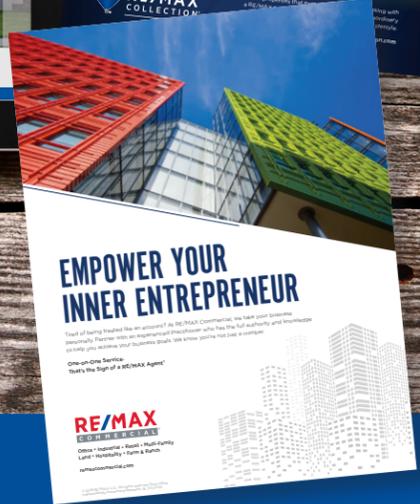

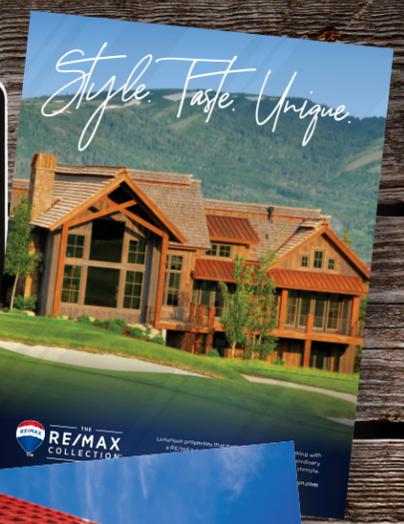

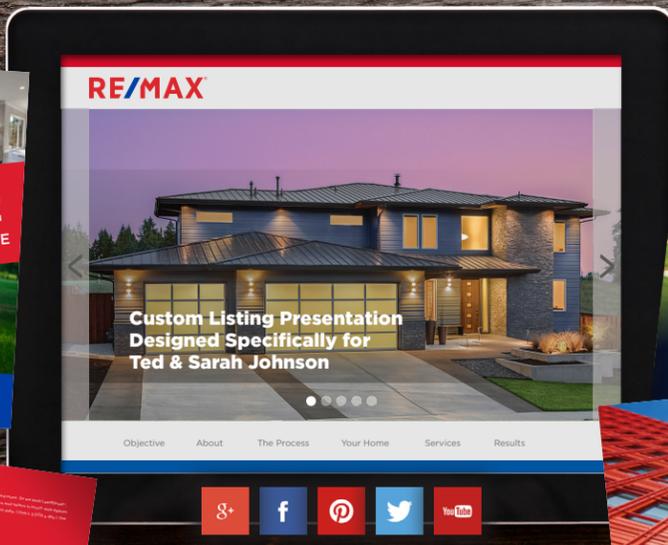

Zip Codes

Leads are assigned to agents based on 10 zip codes they select within their LeadStreet Profile. Agents may enter a zip code multiple times to increase their chances of receiving a lead from that area.

RE/MAX DESIGN CENTER YOUR PERSONAL MARKETING ASSISTANT

RE/MAX Design Center is your online, easy-to-use marketing platform full of free, easily customizable templates for flyers, postcards, virtual tours, websites, presentations and more. Integrated distribution options make sharing and sending projects easier than ever.

Additionally, all projects are instantly branded with your photo and contact information from your profile. Plus, all the designs are professionally created and adhere to RE/MAX trademark standards.

DESIGN CENTER AUTOMATION

Say goodbye to expensive graphic designers and personal assistants hired to create your promotional materials and say hello to Design Center Automation!

Design Center Automation is a feature of RE/MAX Design Center that automatically creates Just Listed, Open House, Price Reduction, and Just Sold marketing materials based on the status of your listing inside the MLS. For example, update the price of your listing in the MLS and all your digital projects, such as listing websites and ePostcards, will automatically be updated and print projects, such as flyers and postcards, will be re-designed - providing you with a new opportunity to advertise your listing.

You will automatically receive a Design Center email with links to all of your Design Center Automation projects within 24 hours of entering or making changes to the listing in the MLS.

Your work, simplified.

This technology is a fast and efficient way to maximize your listing marketing opportunities. Each time you receive a marketing package, you can easily distribute or edit by navigating to the projects tab.

Communicate effectively. Drive new leads.
